DESCRIPTION

Skydrop is the new EASIER automatic baggage drop kiosk integrating the design and advantages of our latest Skycheck check-in kiosk family.

Compliant with PMR or ADA regulations, it has a robust and modular design with easy access for daily operations and services. Its intuitive user interface reduces queues at the counter.

The Self Bag Drop kiosk is ready for biometric. It can be equipped with a facial recognition device.

The biometric solution is compliant with DBMS and GDPR requirements and best practices.

With its elegant, innovative and disruptive design, the Self-Service Bag Drop fits perfectly into any architectural style.
